# a Wide Range of Tasks

## Turn-on & Measure

Leica Viva GS08plus helps you to complete your measurement tasks. Just turn-on and a connection is made to your local reference network. With full support of RTCM 3.1 transformation message, positions are automatically supplied in local coordinates. The GS08plus is ready to measure!

## Quick to learn

We know you want easy to use software. We therefore designed SmartWorx Viva LT with simplicity in mind using clear graphics, logical menu structures, non technical terminology and simplified workflows. You and your field crews will be up to speed in a minimum of time.

## Integrates with my existing equipment

Seamless integration into Leica Viva ensures unlimited scalability and total versatility. Enjoy the benefits of the most modern survey system. The expansion of the system is in your hands, step by step, at any time.

Optional  
UHF radio module

Integrated  
mobile Broadband

... let us inspire you

Whether you want to stake-out an object on a construction site or you need accurate measurements of a tunnel or a bridge; whether you want to determine the area of a parcel of land or need the position of a power pole or to capture objects for as-built maps – you need reliable and precise data.

Leica Viva combines a wide range of innovative products designed to meet the daily challenges for all positioning tasks. The simple yet powerful and versatile Leica Viva hardware and software innovations are redefining state-of-the-art technology to deliver maximum performance and productivity. Leica Viva gives you the inspiration to make your ambitious visions come true.
