

Technical Data

AC 415V - 50/60 Hz

20 - 60

Clean 20mm
Severance 25mm

Power Factor 0.7

Dimensions LxWxH
555 x 210 x 415

9.5A

10.8

60A @ 40%

200 Ltr/Min @ 5 bar
(65 PSI)

Class: IP21S/F

14.5

Key Features

- Latest IGBT plasma cutting inverter
- Lightweight, portable robust design
- Variable cutting control
- 20mm Cut on mild steel
- 6 mtr hand torch with Euro connection
- Non HF ignition
- LED display
- Smooth precise cutting
- CNC connection for automation cutting
- Simple operation
- Generator friendly**
- Includes PT100 plasma torch

Package Includes

Inverter power source, Plasma torch, Earth return lead,
Operating Instructions, 5 year warranty*

* 5 year warranty subject to product registration **Generators should have regulated output
