

## TF 9EL

TF 9EL is a compact unit with a high output, developed for heating and drying smaller spaces. Its compact design makes this unit ideal for confined spaces such as stairwells, marquees and apartments. Sleeve coupling plate allows the air flow and air distribution to be adjusted. Optional castors can be added if required. This unit can be placed on the floor or wall-mounted (wall bracket included). The simple construction of the unit facilitate cleaning and maintenance. All electrical connections are made underneath a panel held by four screws, which simplifies cleaning of the unit. This product is only suitable for well-insulated areas or occasional use.

## Product benefits:

- Designed for heating and drying small areas
- A very compact unit that easily fits into confined spaces and apartments
- Choice of accessories which make it easy to adjust air distribution, heat level and air flow
- Supplied with sleeve coupling plate and 3 sleeves
- All electrical connections are made underneath a panel held by four screws  
Just remove the panel and the machine can easily be washed down
- Can be placed on the floor or wall-mounted
- With mechanical thermostat for room temperature control

## Technical data

Description	TF 9EL
Item number:	E8726407
Input	5-pole / 400 V 16 A CEE 416-6
Rated current	13
Voltage	3N~400 V
Total heat output (kW)	9
Power settings	4.5–9
Air flow (m <sup>3</sup> /h)	1250
Noise level (dB (A))	65
Weight (kg)	18.9
Dimensions H x W x L (mm)	744 x 556 x 360
Encapsulation class	IP44
Average seasonal efficiency	36%
